BUSINESS CARD

The city of **S·U·M·Y** is a modern, developed and friendly city in the North-East of Ukraine, which is open to cooperation with investors on mutually beneficial terms.

S·U·M·Y has long been known for its strong industrial potential, as well as a high level of scientific and human resources.

Further development of the city was interrupted by the treacherous invasion of Ukraine by the Russian Federation. The city of **S·U·M·Y** was the first to receive the enemy's attack. For almost a month and a half, the city was under siege, suffered from shelling, and only thanks to the unity of its residents, the bravery of the brave soldiers of the Armed Forces of Ukraine and the territorial defense of **S·U·M·Y** did it stand and not break.

One of the most important tasks for the city authorities is to restore and develop the city, create favorable conditions for attracting investment and local economic development, so the city authorities guarantee investors openness, clear and transparent rules for starting and doing business, free access to investment proposals: land plots, vacant premises, and the Industrial Park "Sumy".

The city is interested in establishing long-term cooperation for the sake of confident, efficient and sustainable development. We will be glad to welcome you to work together to achieve success!
